

Monthly Recurring Payment Request

If you would like to make **monthly recurring pre-payments** on the 15th of the month to Smith & Sons, please complete the form below, by submitting this form you understand that:

- Smith & Sons does not lock in rates.
- Smith & Sons is a C.O.D company, so it is recommended that I start payments in May during the off-season in order to build up a credit as funds are due on or before delivery
- If I have a fuel delivery coming up and the amount of my credit is not sufficient to cover the cost of delivery (due to price fluctuations of fuel) I am responsible to pay the balance owed at the time of delivery
- If my credit card or ACH payment declines on the 15th, Smith and Sons will not attempt to charge my payment method again until the 15th of the following month
- If my credit card or ACH payment declines a \$10 fee will be applied

** If you are unsure of approximately how much you should pre-pay each month, Smith & Sons recommends getting a 2 year history of your address usage to better determine the monthly amount that might be best for you (typically \$100-\$325).

Please return to Smith & Sons Fuels.

Smith & Sons Fuels Inc.
